The living cultures of Australia's Aboriginal people span more than 60,000 years. Your Jilinya guides belong to the Worrorra language group, whose homelands stretch from Cone Bay in the southwest to the Prince Regent River in the north. Worrorra people follow the Wandjina— their god, law-maker and creator. Images of Wandjina are painted in caves throughout the Kimberley, recording the stories and knowledge of the ancient culture on stone. We invite you to come and visit these ancient yet still living rock art galleries, guided by Jilinya Adventures.

ABOUT JILINYA ADVENTURES

Francis Woolagoodja, founder of *Jilinya Adventures*, is a Worrorra man who comes from the Oomeday (Horizontal Falls) and Mulendom (Prince Regent River) regions of the Kimberley. He traces his belongings to these areas back through generations on his grandfather and grandmothers side... connecting him to both the north and southwest of Worrorra country. Since a child he has grown up learning the ways of the Wandjina culture from his mothers brother, Uncle Donny Woolagoodja. He created *Jilinya Adventures* as a way that he and his family members can share their knowledge with visitors to their country and spend more time in their ancestral lands.
